

Kentucky Automobile Dealers Association

**CAPITOL
BRIEFS**

Capitol Briefs: Clerk's Modernization Bill has officially passed!

It's official! Our Clerk's Modernization Bill – House Bill 284 – has been signed and passed by Governor Andy Beshear!

An enormous thank you to Senator Jason Howell and Representative Michael Meredith for doing such an incredible job carrying this bill on our behalf.

So what does this mean:

This means that moving forward, all parties are committed to working together to ensure that by January of 2024 electronic titling and registration will be available to car dealers.

As always, as things progress, we will keep you informed and up-to-speed.
