## Capitol Briefs: Clerk's Modernization Bill, another step closer

With great pleasure, we can announce that our **Clerk's Modernization Bill – House Bill 284** – has **officially passed the Senate Transportation Committee**. This morning it was voted on by members of the Senate Transportation Committee and passed **unanimously**. This is after it already passed the House with another unanimous vote of 88-0.

Thank you again to Senator Jason Howell and Representative Michael Meredith for doing such an incredible job carrying this bill on our behalf.

The bill will now move on to be heard in front of the full Senate.

As things progress with this bill and others that we are monitoring, we will keep you informed and up-to-speed. Stay tuned!
