Settlements Overview

- Billions available annually in settlement funds
- Common reasons for lawsuits:
 - price-fixing of products;
 - inadequate compensation for services;
 - manipulation of financial markets
- Defendants forfeit large sums of cash in exchange for releases from Class Members and/or certain rights
- Rights often surrendered even if claim is not submitted
- Automatic payment is rare – claim must be submitted to receive monetary compensation
- Funds exhausted despite low participation
- Healthcare organizations are frequently eligible Class Members

Settlement Types

Product

Alleged price fixing and or inflation of certain products by manufacturers. Indirect and direct purchaser settlements.

Healthcare

Insurance claims were not reimbursed or were not paid correctly to facilities and/or providers.

Pharma / Benefit Plan

Organization with a self-insured health plan overpaid for drugs purchased on behalf of its employees. Typically only applies to organizations with 5,000 or more FTE's.

Financial

Manipulation of financial markets by large banks; excessive payment card interchange fees.

Class Member Options

- Often **80%** or more of eligible entities do not pursue settlements.
- Why don't eligible entities file on their own?
 - Unknown ROI
 - Limited access to data/records
 - Misunderstanding of filing requirements
 - Unaware of applicable settlements
 - Issues with delivery/receipt of notices
 - Inefficient use of resources – filtering through notices to identify worthwhile opportunities

The SRS Process

01

Monitor Class Action resources for available settlements.

03

Alert clients of applicable settlements and whether or not action is required.

05

Coordinate with the Settlement Administrator to ensure the appropriate recovery amount.

07

Distribute net proceeds to clients.

02

Identify and Assess applicable settlement opportunities and assess their value.

04

Submit claims to the Settlement Administrator.

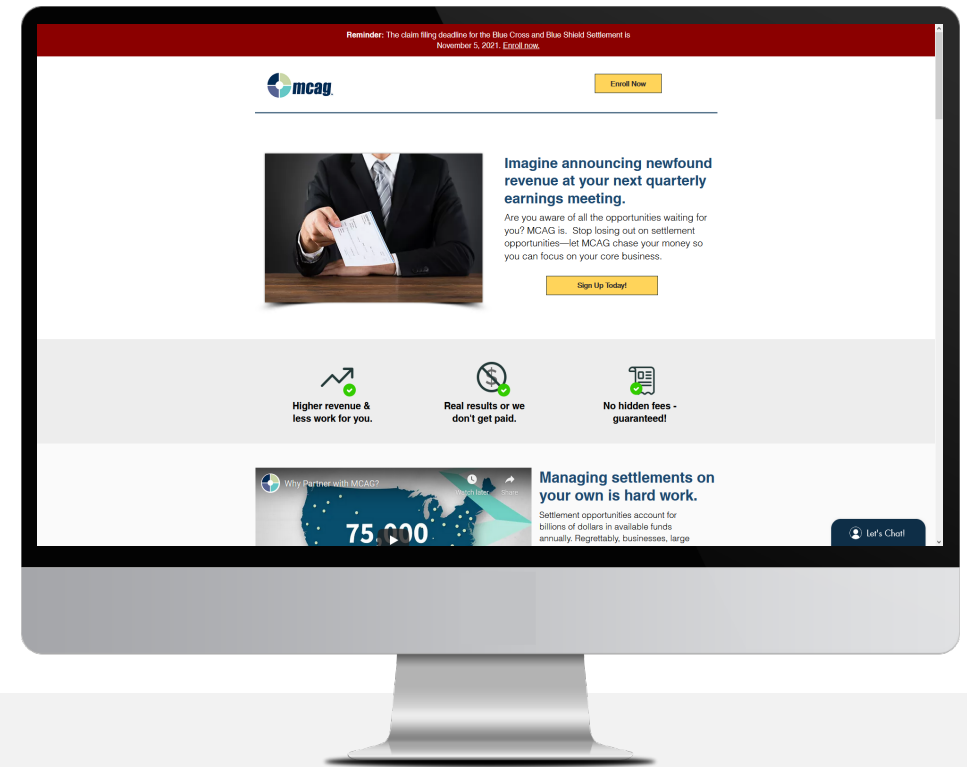

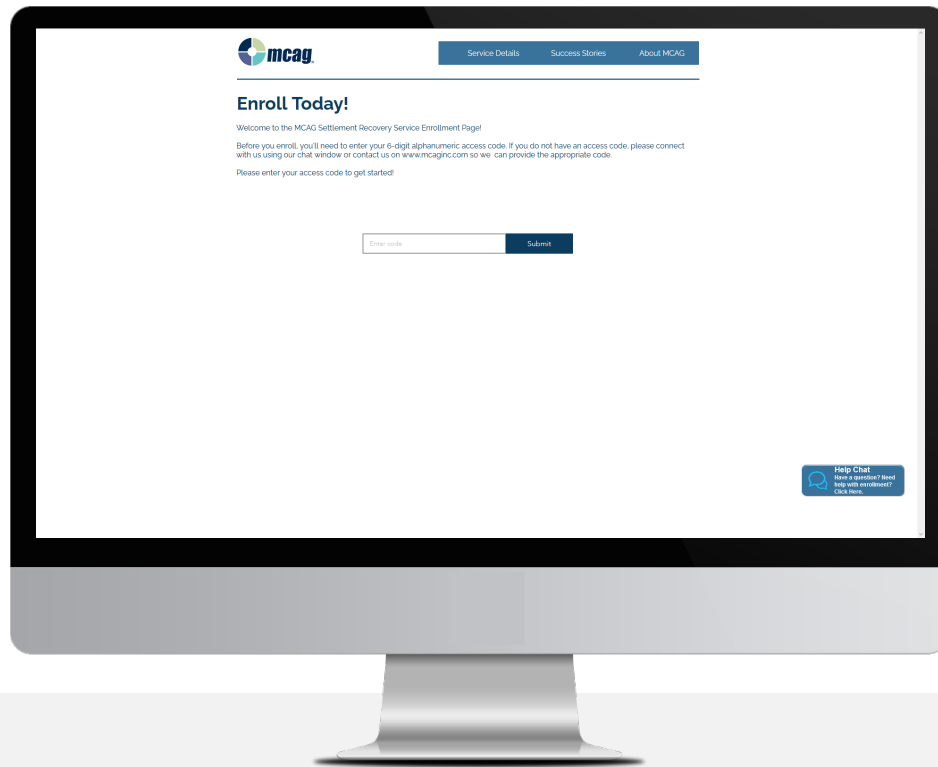

06

Recover gross proceeds on behalf of clients.

Visa/Mastercard Settlement

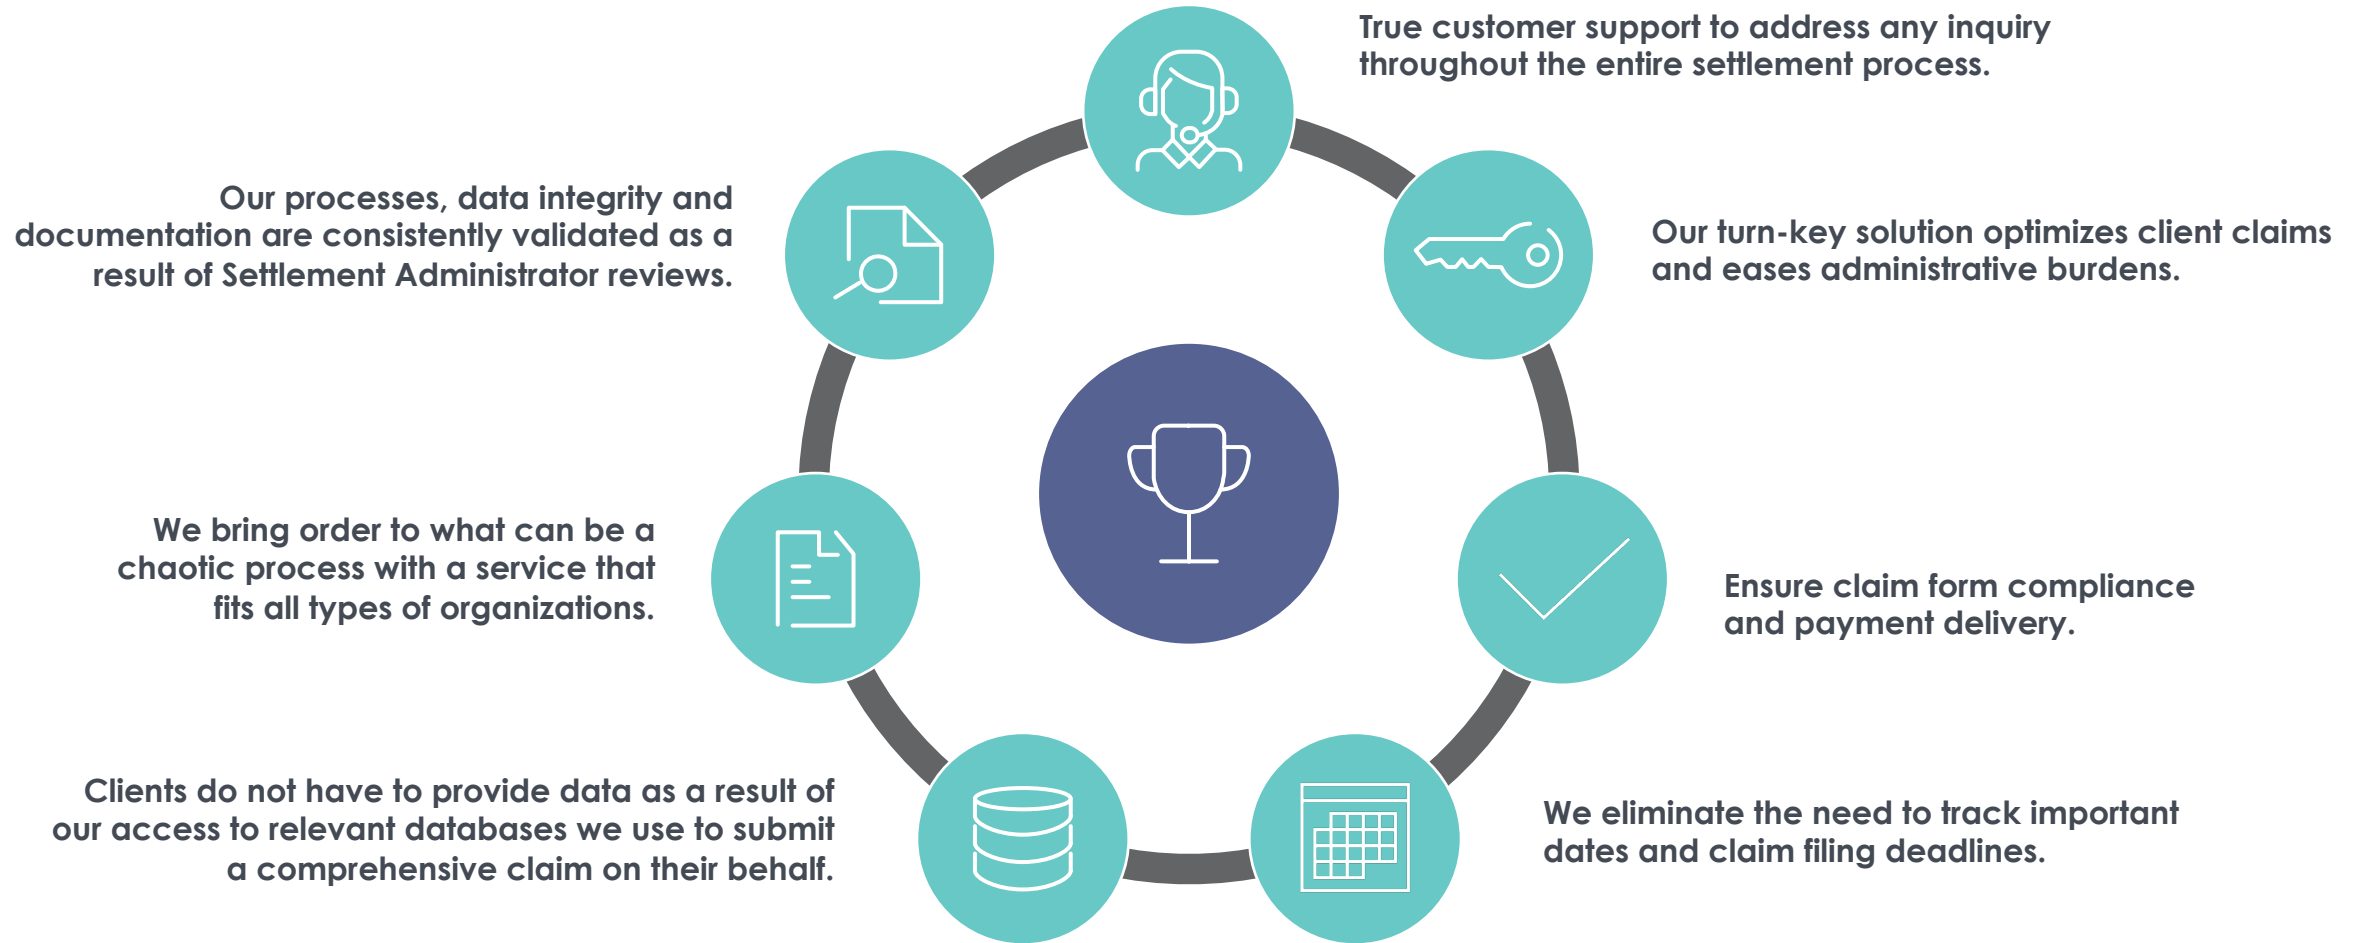

In re: Payment Card Interchange Fee and Merchant Discount Antitrust Litigation

- The settlement resulted from a lawsuit claiming that merchants paid excessive fees to accept Visa or MasterCard cards because of an alleged conspiracy among Visa, MasterCard and their respective member banks.
- If your business accepted Visa or MasterCard payments any time from January 1, 2004 to January 25, 2019, you may be eligible to recover money from this settlement.
- The net proceeds available from the settlement will be approximately \$5 billion.
 - Returns could be significant because over 150 of the largest merchants, such as Wal-Mart, Delta Airlines, American Airlines, and Google have already been compensated by the Defendants and are not eligible to be paid from the \$5 billion in settlement funds.
- Timing of a claim submission process has not yet been set – we offer a solution that you can sign up for today to ensure that an optimal claim is filed on your behalf as soon as the claim window opens.
 - December 13, 2019: District Court granted Final Approval – appeals have been filed. A claims process will be available once all appeals have been resolved.
 - March 16, 2022: Oral arguments held in Court of Appeals. Awaiting decision on appeals.
